RESOLUTION - ACTION REQUESTED 2013-568

MEETING: December 17, 2013

TO: The Board of Supervisors

FROM: Peter Rei, Public Works Director

RE: Approve a Professional Services Agreement with Golden Valley Engineering

RECOMMENDATION AND JUSTIFICATION:

Approve a Professional Services Agreement with Golden Valley Engineering to provide Construction Design Support and Inspection for the Bridgeport Fire Station in the not-to-exceed amount of \$25,000; and authorize the Chair of the Board to Sign the Agreement.

BACKGROUND AND HISTORY OF BOARD ACTIONS:

On May 7, 2013, staff presented to the Board a update status on the Bridgeport Fire Station project. Staff reported to the Board possible savings by building a wood frame for the project instead of the metal framed structure previously designed. The Board directed Staff to proceed with the alternative wood frame design and proceed with the preparation of the Plans and Specifications as soon as possible so that the Bridgeport Station may be constructed later this calendar year.

On June 25, 2013, the Board of Supervisors authorized the plans and specifications and advertisement for bids for the construction of a wood framed structure for the Bridgeport Fire Station.

On August 8, 2013, Public Works received four bids from contractors wishing to build the Bridgeport Fire Station. The lowest responsible bidder was determined to be Lee Way Construction with a bid amount of \$606,440. For comparison, the Engineers Estimate for the project was \$635,350.

On September 3, 2013 the Board approved a Contract for Services with Lee-Way Construction for the Bridgeport Fire Station in the not-to-exceed amount of \$606,440.00.

ALTERNATIVES AND CONSEQUENCES OF NEGATIVE ACTION:

The Board could choose not to award the contract. The result would be that the Bridgeport Fire Station would not have the required permits and inspections necessary to obtain the Certificate of Occupancy.

FINANCIAL IMPACT:

Sufficient funding is budgeted in the Bridgeport Fire Station fund.
