

**ADMINISTRATIVE ANALYST I/II**

**DEFINITION**

Under general direction, to perform a wide variety of administrative and analytical support duties, generally for a deputy department head or higher; to direct and manage assigned special projects and programs such as the County's economic development/community development function, contracts and grants administration, financial analysis and budget development, human resources, community engagement and/or dealing with housing issues; to coordinate activities and input on assigned projects from County management, staff, the community, and other organizations; to provide professional support in other assignments as needed to meet the mission of the organization; and, may provide direct and/or indirect supervision to lower level personnel. The work mainly involves the gathering and interpretation of data/information, development of options, making recommendations, and reporting data dealing with complex problems, including those programs that deal with financial analysis, budget development, and accounting, community/business involvement/outreach, human resources, program management, and surveys/studies.

**DISTINGUISHING CHARACTERISTICS**

Administrative Analyst I/II is a flexibly-staffed class series. Positions allocated to the I/II levels are normally filled at the I level. Advancement from the I to the II level is at the discretion of the appointing authority, provided that the following criteria are met: (1) the minimum qualifications and time-in-grade requirements, (2) demonstration of the ability to independently perform the full scope of the assigned duties, and (3) assignment and performance of the duties of the advanced journey level as defined in the Distinguishing Characteristics of the Administrative Analyst II below.

Administrative Analyst I is the journey level class and serves as the entry into the series. It provides experienced administrative support at the professional level in one or more support areas that may include general, professional support on projects related to budget, finance, personnel/human resources, contracts and grants, procurement, economic development, public outreach, or other assignments; compiles and analyzes data; participates in design and implementation of systems, procedures and programs.

Administrative Analyst II is the advanced journey level in the series, which is responsible for technical assignments requiring focused experience in one or more specialized subject areas, rather than general municipal administration and analytical support. This level is responsible for performing the full range of specialized and technical duties in such areas as economic development, personnel/human resources management, financial analysis and budget development, contracts and grants administration, community engagement, and other identified technical support activities to the County. Incumbents in these positions are assigned significant responsibilities at the advanced level that require, depending upon the area assigned, specialized knowledge, skills, experience, and the ability to exercise independent judgment in the performance of their duties.

Administrative Analyst I/II is distinguished from Senior Administrative Analyst by the higher level of complexity and difficulty of the assigned work and/or the number of staff supervised by the Senior level. While Administrative Analyst I/II may supervise and perform complex work, the Senior Administrative Analyst provides direct supervision to more than three employees and is assigned significant responsibilities at the expert level that require, depending upon the area assigned, highly specialized knowledge, skills, and/or experience.
