DESCRIPTION OF THE SURVEY AREA

MARIPOSA TPA BOUNDARY LINE - A GENERAL DESCRIPTION

The Mariposa Town Planning Area boundary line follows two northwesterly trending ridge lines on its northeast and southwest sides. The ridge on the northeast side is the divide between the Stockton Creek watershed and the Mariposa Creek watershed. At the southeast end of the Town Planning Area, the boundary lines converge near the old townsite of Mormon Bar, which includes the Mariposa County Fairgrounds property. As the northeasterly Town Planning Area boundary continues in a northerly direction, it leaves the ridge to intersect with State Highway 140. This point of intersection is approximately 1/4 of mile northeasterly of where the Old Highway intersects with State Highway 140. From the point of intersection with State Highway 140, the Town Planning Area boundary line follows a general arc-shaped path to the left that is concave to the south and has a radius of about 5,000 feet. The boundary line arcs in a westerly direction intersecting with Mariposa Creek and then with State Highway 49. The boundary line connects with the ridge line that makes the southwesterly boundary of the Mariposa Town Planning Area.
