

MARIPOSA COUNTY

Safety Mission Statement

To All County employees:

As your employer, Mariposa County ("County") is concerned with your health and safety. Your workplace is also subject to Federal, State and County regulations and policies designed to promote work areas free of hazards. The County's goal is to reduce or eliminate workplace accidents, and to provide a safe and healthy work environment.

Injuries are costly to an individual employee, oftentimes significantly changing that employee's future, and frequently threatening the security of the employee's family. Accidents are also costly to the County and hinder its ability to provide services to the citizens of the community.

Every employee plays an important part in preventing accidents. Every employee has a personal responsibility for their own safety, and likewise has a responsibility to his/her family, fellow workers, community, and employer to conduct work activities in a safe manner. Therefore employees are expected to observe safety laws, practices, rules, and Departmental operating procedures. The goal is that everyone works together to maintain a safe workplace.

With your help, the County Board of Supervisors has instituted an Injury and Illness Prevention Program which promotes a safe and healthful working environment. The cooperation of all employees in the County is expected. The results will be worth the effort and everyone will benefit.

Signed by,

Chairperson, Mariposa County Board of Supervisors
