Development Agreements:

A development agreement is a contract between the County and an applicant with a legal or equitable interest in land subject to development, in compliance with State Law.

The purpose of development agreements is to provide a means of processing development permits which give a development project proponent reasonable assurance that a project can be carried out to its conclusion and the County of Mariposa can be assured that all reasonable on-site or off-site improvements and other conditions of project approval are constructed or carried out to the satisfaction of the county.

In return, the County is provided assurance that the project will further important Countywide goals and policies that have been officially recognized by the Board, and provide the County with significant, tangible benefits beyond those that may be required by the County through project conditions of approval.
